Equipment Sales

3.
Operation & Maintenance

1. Equipment Rental

Power Rental

Our rental fleet consists of diesel generators sourced from major manufacturers. They are available on rent ranging from 30KVA to 1,250KVA and also have the capability of expansion to Powerplants. All the generators available are soundproofed canopies and containerized as per the standards.

Complete packages will be supplied, including backup power, fuel tanks, distribution panels, transformers, manual and automatic switches as per the customer requirement. IES also provides high voltage power solutions.

2.

Equipment Sales

Diesel Generators

IES supplies generators manufactured by Cummins and Perkins suitable for industrial, commercial or residential needs. Based on the prime or standby application precise capacity can be selected from the available range. The generators can be Open type or in a Soundproof canopy/container as per the customer requirement.

Fuel tanks

Our fuel tanks are suitable for bulk storage of diesel and are Eco-friendly. The capacity can be carefully selected based on customers fuel refilling plan.

Other electrical accessories for sale

IES has other range of electrical accessories available for sale as required, like distribution panels, synchronization panels, automatic & manual transfer switches.

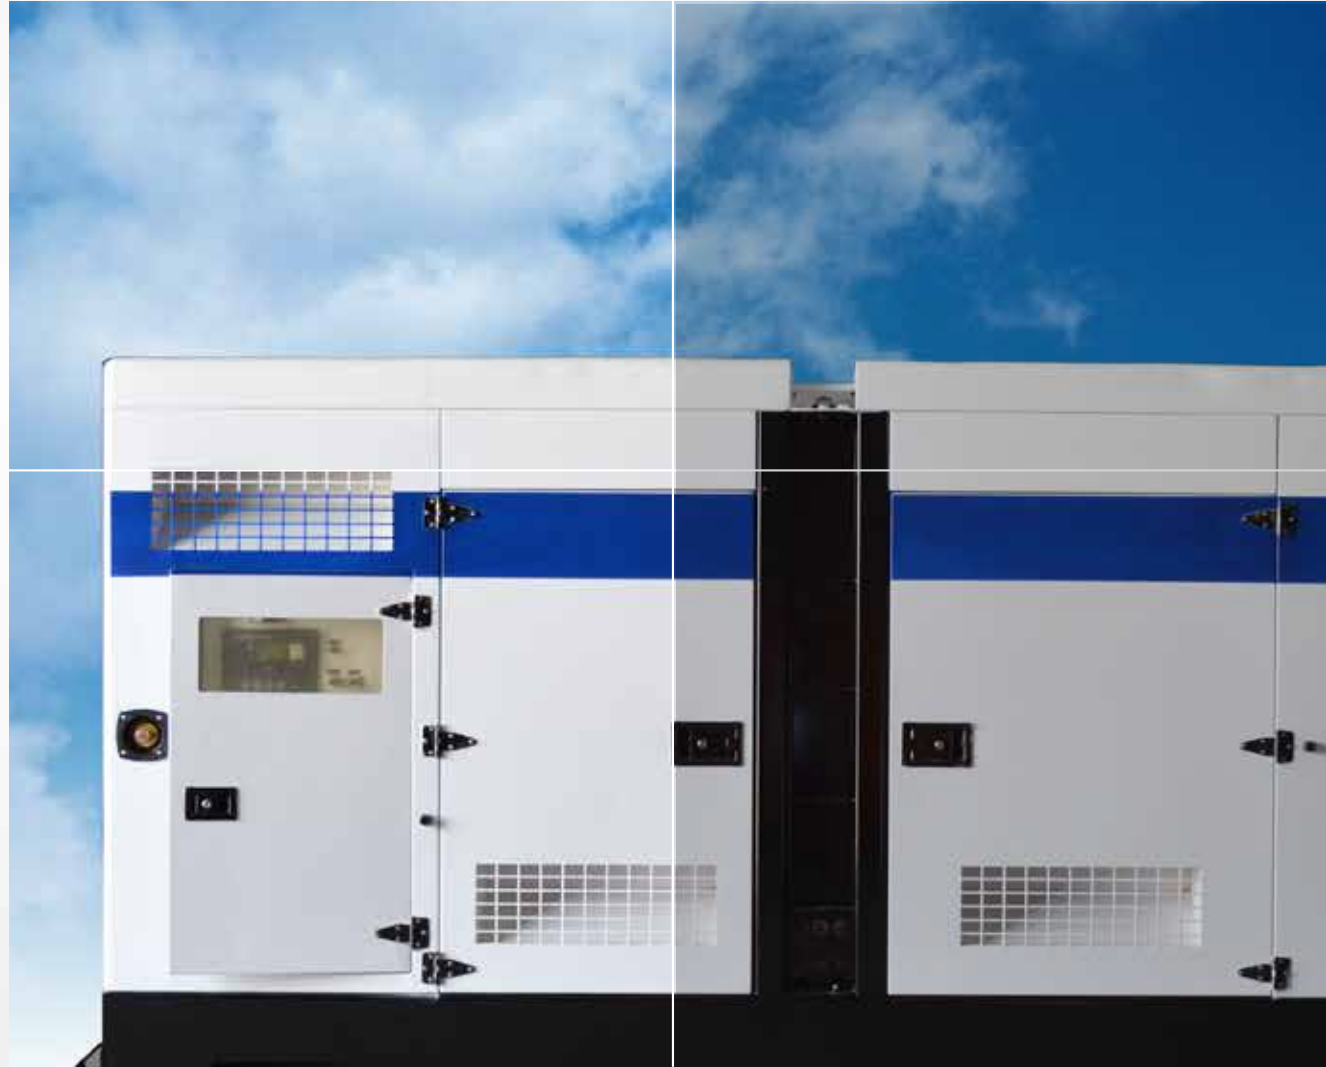

3.

Operation & Maintenance of Generators

Proper operation & maintenance is the key factor in the long life of the equipment. IES undertake O&M contracts with customers to safeguard their investment with the help of our reliable and experienced technical team. A proper O&M contract is far more cost effective than major failures in the equipment.
